## History

#1 - 09/21/2007 12:55 PM - Alain Prouté

- Status changed from New to Assigned

The problem has been identified as a consequence of the immediate making of adm files. Will be fixed soon.

**#2 - 09/21/2007 08:25 PM - Alain Prouté**

- *Status changed from Assigned to Closed*
- *Resolution set to fixed*

The problem has been solved rather drastically. Indeed, if a file ends within a paragraph, a string or an in-paragraph comment, the compiler stops immediately. In other words, this is a fatal error. It has been solved like this because I did not find any manner of putting the parser back into a correct state after this error.

**#3 - 09/23/2007 10:42 AM - Anonymous**

- *Status changed from Closed to Feedback*
- *Resolution deleted (fixed)*

The bug is still present after your changes.

**#4 - 09/23/2007 10:45 AM - Anonymous**

- *Status changed from Feedback to Closed*
- *Resolution set to fixed*

Bug now corrected by some clarification on paths. The compile was lost because it tries to compile same file twice (see the 2 first errors in example). Paths received by command line option -I weren't converted to absolute ones. So they were duplicated.
