Target version:	1.8	Triage Stage:	
Platform:			
Resolution:	worksforme		
Description			
Sometime, when we want to restart VM with restart instruction, the vm simply quit instead of reloading the ADM.

The problem is probably coming from the function schedul in anbexec.cpp. A problem of counting the number of machines in various states.

#3 - 07/21/2008 01:41 PM - Anonymous

- Status changed from Assigned to Closed

- Resolution set to worksforme
