Description

I'm trying to compile my anubis source file with the following command line:

    anubis.exe -I"../versions/S200;..;./" -tab:2 ip_dyn_tester.anubis

But the (funny) answer is :

    The path '../versions/S200' contains too many ".."!The path '..' contains too many ".."!
    D:/Develop/Anubis/EZMailBox/EZMailBox/src/tests/ip_dyn_tester.anubis (line 1, column 1) Error E005:   The file
    'ip_dyn_tester.anubis' was not found in any of the following directories:
       D:/Develop/Anubis/EZMailBox/EZMailBox/src/tests
       D:\Home\ricard\Mes Documents\my_anubis/library
       C:\Program Files\Anubis/library

Ok, I will probably do the correction myself... this is just that I have no time for it today...
